About Jio Institute

Jio Institute is a multidisciplinary higher education and research institution set up as a philanthropic initiative by Reliance Industries Limited and Reliance Foundation. The Institute is dedicated to the pursuit of excellence by bringing together global scholars and thought leaders and providing an enriching student experience through world-class education, relevant research platforms, and a culture of innovation.

Our Vision

Our founders Smt. Nita Ambani, Founder Chairperson, Reliance Foundation and Shri Mukesh Ambani, Chairman & Managing Director, Reliance Industries Limited firmly believe in the power of the youth to transform India.

It is this belief that was instrumental in conceptualizing and setting up Jio Institute.

Jio Institute envisages to:

- Be an exemplary Indian academic institution with international repute.
- Build a vibrant ecosystem for research, innovation and entrepreneurship.
- Be India's test bed for frontier research and invention of future technologies.
- Prepare the next generation of leaders and entrepreneurs through holistic development.
- Significantly contribute to the advancement of the Indian society.
- Solve India's problems and solve them fast.
- Provide a lifelong learning experience.

Our Current Programmes

Jio Institute currently offers the following one-year, full – time, residential Post Graduate Programmes:

1. Artificial Intelligence & Data Science
 2. Digital Media & Marketing Communications
 3. Sports Management

- 

15 Years Strategic Plan

Jio Institute is following a well thought out strategy of initially focussing on developing a range of postgraduate, doctoral, and post-doctoral programmes across disciplines. This will build a culture of research & innovation and attract top-notch global scholars and researchers. The benefits of a strong research foundation will then percolate down when it subsequently launches undergraduate programmes in the next stage.

Jio Institute has charted out its growth plan in three phases- Startup Phase, The Growth Phase, and The Expansion Phase:

1. Startup Phase

The startup phase will focus on launching of postgraduate, PhD, and postdoctoral programmes in multiple disciplines. These programmes will act as 'seeds' towards building more programmes in the future.

2. Growth Phase

Growth Phase will focus on further expansion of the initial disciplines. During this phase, Jio Institute will also commence and expand its undergraduate programmes to further augment multi-disciplinary learning.

3. Expansion Phase

Expansion Phase will focus on adding more programmes and professional schools to enhance the success and experience of Jio Institute's community and strengthening the global reputation of the institution.

Over these three phases, Jio Institute aims to have a community of over 10,000 students across multiple disciplines covering - Arts, Humanities & Social Sciences, Natural and Physical sciences, Engineering, Information Science, Architecture & Urban Planning, Medical Sciences, Management & Entrepreneurship, Law Governance & Public Policy, Media and Communication & Journalism

To draw upon a diverse knowledge and talent base from across the world, Jo Institute will continue to build strategic partnerships with leading global universities, on the lines of its existing international tie-ups.

Jio Institute aims to create thought leaders, visionaries, and entrepreneurs who will shape the social and industry discourse in the coming decades, through a holistic approach to imparting education. The path that it charts and the education that Jio Institute offers will at all times be guided by the needs of the nation, society, and industry.

Jio Institute

Facility Summary

Particulars	Data
Area of JI Campus	27 Acres
Built up area	3,60,000 Sq. ft.
